**Venue:**

Bhatnagar Auditorium,  
National Institute for Interdisciplinary Science and Technology  
Council of Scientific and Industrial Research, Pappanamcode,  
Thiruvananthapuram – 695 019, Kerala

*NIC-NKN Kerala cordially invite you to participate in the*

## **"Technical workshop on National Knowledge Network(NKN)"**

The NKN (National Knowledge Network) is a state-of-the-art Multi-Gigabit Pan-India network for providing a unified High Speed Network backbone for all knowledge related Institutions in the country.

The purpose of such a knowledge network goes to the very core of the country's quest to build quality institutions with requisite research facilities and create a pool of highly trained persons. The NKN while impacting the existing academic and student community will also alter the R&D landscape for future generations.

In Kerala, currently thirty three institutes are connected to the NKN. This workshop aims to bring all the connected and to be connected institutes together on a single platform to explain the architecture of the NKN and provide case studies which would enable the member institutes in the integration process of their own networks with the NKN.

The workshop will illustrate methodology for integration of NKN with the internal networks as well as discuss other network related topics through a series of technical sessions which will help the institutions in using the NKN services in a more effective and enhanced manner.

We request your active participation and valuable feedback in the event.

# AGENDA

## 9<sup>th</sup> May 2012
