

CLARIFICATIONS AND RESPONSES IN THE PRE BID MEETING HELD ON 21ST
NOVEMBER 2013 IN OUR COMMITTEE ROOM FOR THE FABRICATION, ERECTION
AND COMMISSIONING OF DEMONSTRATION PLANT FOR BANANA FIBRE
EXTRACTION

File No : PUR/IMP/081/13

Description of Item : FABRICATION, ERECTION AND COMMISSIONING
OF DEMONSTRATION PLANT FOR BANANA FIBRE
EXTRACTION

Clarifications about Banana Fibre Extraction Project .

Qtn: How much time for the implementation of the project?

Ans: **2 Months.**

Qtn: All the works (including civil works) and fabrication machineries are not available in a single industry we can go for outsourcing?

Ans: **Yes**

Qtn: What is the maximum reserved price for the project?

Ans: **No concept of reserve prices.**

Qtn: In the design of the tank some bulging will take place when frequently used, we will provide the reinforcement or not?

Ans: **Not required (follow the drawings).**

Qtn: When we quote the commercial bid based on practical cost including the union problem and labor installation problems (Loading and unloading) that's and all hidden cost, here theory and practical lot of difference is there, under which head we will mention in this bid form?

Ans: **All such cost should be included in the quote in a separate head.**

Qtn: Up to installation and trial run we will make fabrication or your scientist or other people will come and give modification and suggestion frequently?

Ans: Yes, periodic inspection and supervision will be offered by NIIST at various stages and upon the progress of the awarded work

Qtn: Epoxy paints which grade, color and how many coats?

Ans: 1st Grade Liquid epoxy paint, Light Green color (3 coats)

Qtn: Welding any special welding or ordinary Arc welding is enough?

Ans: Recommends Arc welding

Qtn : Which type of washing jet is required for this project?

Ans: Portable type water jet with water gun (car washing type water gun).

Qtn: Maintenance and service warranty for how much time?

Ans: One Year.

Qtn: Which quality of neoprene rubber for gas collection?

Ans: 1st Grade Neoprene biogas balloon (5000 litre capacity).

Qtn: Details of biogas balloon dealers?

(a) Biogen Bioflame , Trivandrum, Phone:9249124414, 9895027772

(b) Near Road No.5, Mewar Industrial Area, Madri, Udaipur (Raj.) -313003

Email: siya1234@gmail.com, seca1234@gmail.com

Phone: +91-294-2491903, 9414156154, 9414926153

Qtn: Mode of payment and its details?

Ans: 50 % payment after fabrication and installation stage and 50 % payment at commissioning stage.

(NB : There is an alteration in the specification page)

Previous Specification

Concrete platform with foundation for the Reactor and tanks: Providing and laying foundation for placing the anaerobic reactor having a footprint of 5 feet diameter including excavation of earth for foundation, placing concrete of 150 mm thick, and RCC pedestal for fixing 3 nos of **U clamp** having **75 mm x 75mm x 75mm** with necessary reinforcement using M20 CC.

The above specification is changed to the following New Specification

Concrete platform with foundation for the Reactor and tanks: Providing and laying foundation for placing the anaerobic reactor having a footprint of 5 feet diameter including excavation of earth for foundation, placing concrete of 150 mm thick, and RCC pedestal for fixing 3 nos of **C - channel** having **100mm x 50mm** with necessary reinforcement using M20 CC.

The tender specification stands amended to the extent as given above.

The questions have been reproduced verbatim and the institute is not responsible for the english reproduced.
