

3rd May 2013

Workshop on ‘Creativity & Lateral Thinking’

HRD Committee, NIIST organizes a one day workshop at NIIST on 14th May 2013 on ‘Creativity & Lateral Thinking’ by Human Development Consortium, Trivandrum.

Staff members and students who would like to participate may give their names either to me or to Mr. R.S. Praveen Raj, Senior Scientist, latest by 8th May 2013.

CREATIVITY AND LATERAL THINKING WORKSHOP

Creativity is not simply about coming up with big ideas, but finding practical solutions to everyday problems and then applying them to real life situations.

Lateral thinking is solving problems through an indirect and creative approach, using reasoning that is not immediately obvious and involving ideas that may not be obtainable by using only traditional step-by-step logic.

The workshop will cover in detail topics like perception, self organizing patterning system of brain, Brain Storming Mind mapping and various other thinking tools
